

Model 49-2F

Description: Cutting Attachment for alternative fuels. Solid forged head resists abuse and distortion. Triangular tube design is compact and lightweight with exceptional strength and rigidity. Brazed connections prevent leaks. Protected torch union nut protects seats and o-rings from abuse. Solid forged lever for exceptional strength or Handwheel valve (designated by V in the part number). Ease-on cutting oxygen control for smoother starts.

Features:

- Torch Type: Cutting.
- Torch Length: 248mm
- Torch Head Angle: 90°
- Weight: 0.678 Kg
- Cutting Tip: 6290GG, 62902NFFR, 6290NFW, 6290NX, 6290NFF, 6290NXPM
- Brazing Tip: H-62
- Compatible Handle: 43-2, 263, 543
- Fuel Gas: Oxy-natural Gas/Methane Oxy-propane/Butane Oxy-propylene
- Mixing System: F
