

Model 601-1,5-AC

Description: Single Stage Compact Regulator. This single stage regulator was designed to be compact, inexpensive, but with features available in more expensive regulators. It is used where cost and size are factors.

Typical Application: Light duty cutting, welding and brazing.

Features:

Compact, economical, maximum inlet pressure of 25 bar, forged brass body and bonnet, rear inlet connection (side entry optional), 50mm safety gauge.

- Capacity: Light Duty
- Stage: Single
- Gauges: 50mm Steel
- Gas: Acetylene
- Certifications: EN ISO 2503
- Max Inlet Pressure: 25 bar
- Max Air Flow: 7 m³/h
- Delivery Pressure Range: 0-1.5 bar
- Delivery Pressure Gauge: 0-2.5 bar
- Supply Pressure Gauge: 0-40 bar
- Height: 127 mm
- Width: 141 mm
- Length: 109 mm
- Weight: 0.8 kg
- Pressure: 0-1.5 bar
- C_v: 0.17
