

Model 601D-30L

Description: Compact single stage flowgauge regulator.

Typical Application: Light duty MIG/TIG welding.

Features:

Forged brass body for maximum strength, large Ø 70mm diaphragm stabilizes working pressure, durable chromed bonnet, side entry (vertical optional).

- Capacity: Light Duty
- Stage: Single
- Gauges: 50mm Steel
- Gas: Argon / CO2
- Certifications: EN ISO 13918
- Max Inlet Pressure: 230 bar
- Delivery Pressure Range: 0-30 Lpm
- Delivery Pressure Gauge: 0-30 Lpm
- Supply Pressure Gauge: 0-315 bar
- Height: 127 mm
- Width: 141 mm
- Length: 109 mm
- Weight: 0.8 kg
- Pressure: 0-3.5 bar
- C_v: 0.07
